

COMPREHENSION OF THE FIGURES IS IMPOSSIBLE

AS THEY ARE GIVEN BY OFFICIALS IN STANDARD OIL COMPANY.

HALF BILLION PROFITS

Have Been Made in the Last Eight Years—Trust Controls Seventy Companies.

ASTOUNDING FIGURES.

Following are some of the astounding figures brought out for the first time in the hearing yesterday of the case against the Standard Oil Company of New Jersey:

Profits eight years \$190,315,924
Assets in 1899 ... 250,791,623
Assets in 1906 ... 371,664,531
Profits for 1899 ... 34,420,314
Capital stock 1899 \$5,998,612
Capital stock 1906 98,338,382
Indiana branch fined ... 29,246,000
Bond to stay execution ... 6,000,000

New York, Sept. 18.—In a period of eight years, from 1899 to 1906, inclusive, the Standard Oil company was shown to have earned the total profits of \$490,315,924, or at the rate of more than \$61,000,000 a year, and distributed to its shareholders in the same period \$308,359,403. These facts were brought out by Frank B. Kellogg, who is conducting the federal suit for the dissolution of the company, and who examined a number of Standard Oil officials during the hearing.

Brought under the Sherman anti-trust law, this investigation, having its inception in Missouri, has taken a nationwide compass. Half a dozen states are interested in the outcome of the investigation and have their legal representatives here to watch the progress of the fight.

While the company was earning these vast sums in the refining of oil, the statements adduced at the hearing show that between 1899 and 1906 the assets of the company grew by leaps and bounds from \$201,781,523 to \$381,314,531. The capital stock is \$98,338,382. Financiers and those seeking knowledge of the exact profits of the Standard Oil company have striven vainly to obtain the figures which Mr. Kellogg succeeded in placing upon the record of the court. Mr. Kellogg also obtained from witnesses a statement showing that the Standard Oil company of New Jersey controlled by stock ownership over 70 companies engaged in the refining and the transportation by pipe line of oil on Sept. 14, 1907. The Standard Oil company had always carefully guarded the list of its subsidiary companies and the amount of its shareholdings. The list showed that the Standard Oil company of New Jersey owned \$999,000 of the total capital stock of \$1,000,000 of the Standard Oil company of Indiana, which was recently fined \$29,140,000 by Judge Landis in the United States circuit court in Chicago for rebating.

Mr. Kellogg's efforts to obtain information of the records of the liquidating trustees who had charge of the liquidation of the Standard Oil trust and the exchange of the liquidating trust certificates for the shares of the Standard Oil company of New Jersey, were not rewarded. Charles M. Pratt, secretary of the Standard Oil company, who testified that he had been a liquidating trustee, said he did not know the whereabouts of the records and could recall but little regarding the liquidation of the Standard Oil trust. Clarence Fay, assistant comptroller for the Standard Oil company, was also unable to give the government inquisitor the information he desired, which caused Mr. Kellogg to remark that he thought it strange that no one in the Standard Oil company seemed to know where the records of the liquidating trustees could be found.

CYCLONE AT FORT WAYNE.

Fort Wayne, Ind., Sept. 18.—A windstorm of cyclonic proportions struck Fort Wayne at 4 o'clock Tuesday afternoon. Many houses in the course of construction were damaged. The wind carried down about 50 feet of the new brick wall of the six-story Marietta building, not yet under roof, crushing Otto C. Shultz, a brick mason, to death. Charles Miller was badly injured.

Prince Wilhelm of Sweden, eschews champagne and highballs.

The smallest bone in the human body is contained in the drum of the ear.

Great Britain makes use of over \$2,000,000 worth of shell sh every year.

PRIEST GUILTY IN SECOND DEGREE OF DOUBLE MURDER

Pittsburg, Pa., Sept. 18.—Ludwig Szczygiel, the unfrocked Polish priest from Chicago, who has been on trial for the murder of Andrew and Stephen Starzynski, brothers, was convicted of murder in the second degree by a jury which returned a verdict. District Attorney Guehring severely arraigned the priest. To protect himself from the supreme penalty, the priest unburdened his past life, frankly confessing his many shortcomings, especially his drunkenness. During his testimony he admitted that Francesco Spro, his housekeeper, who was in the house when the double murder was committed, had accompanied him to this city from Chicago.

MAY DROP SECOND CASE.

Pittsburg, Sept. 18.—District Attorney Guehring will decide today the disposition of Stephen Starzynski's case, the brother killed at the same time. The facts in both cases were practically the same. As the prosecutor says he is satisfied with the verdict it is probable that the case of Stephen will be dropped.

Francesco Spro, the mysterious housekeeper detained as a witness, will be released today.

100 REPORTED LOST IN FIRE ON A STEAMER

London, Sept. 18.—The passenger steamer Taifu Maru is burning at Ching Kiang, many of the crew and passengers are missing, and most of them are probably dead, according to a Shanghai dispatch to Lloyds. A Shanghai dispatch to a news agency here estimates the number of dead at 100.

A HEAVY STORM HITS MILWAUKEE

Milwaukee, Wis., Sept. 18.—The heaviest storm of the year prevailed in this vicinity. Rain to the extent of 1.77 inches fell within 30 minutes. Stores and offices were dark as night. The fire department responded to four calls due to lightning. One struck the Chamber of Commerce and put the lighting plant out of business. Reports from Kenosha and other points are to the effect that considerable damage to growing crops was caused by the rain.

300 DROWN

Seattle, Wash., Sept. 18.—A report was received here today that 300 had drowned in a wreck on Bristol Bay.

ITALIAN OCCULT EXPERT LAYS CLAIM TO THE MYSTERIOUS POWER OF LEVITATION.

It is only a disposition to oblige, which impels Signor Zuccarini to raise himself into the air and stay there for twelve seconds between heaven and earth like Socrates in his basket. He is an amiable young Italian of Bologna, whose exploits as an amateur medium have set all the savants of Europe to talking and the investigators of the occult on this side of the water to wondering if he really can levitate himself in that remarkable manner.

Photographs which appear in the

WARRING TRIBES TO ACCEPT TERMS OF GENERAL DRUDE

FRENCH GUARDS CLOSED CITY'S GATES AND PREVENTED A MASSACRE.

CRUISER AT TARGET PRACTICE

And Booming of Her Guns Mistaken For Hostile Demonstration Against Mazagan.

Paris, Sept. 18.—A hopeful feeling prevails in French government circles that the negotiations now being conducted by General Drude with delegates of the rebellious tribesmen for the settlement of the present Moroccan troubles will soon reach a successful termination.

If peace is arranged no further landings of troops will be made, and pending the result of the negotiations the orders for the embarkments and forwarding of reinforcements have been rescinded. The delegates of the Moorish tribes are expected to give the final response of the tribesmen on Thursday.

Another good feature of the situation is a definite agreement with Mohammed El Gabbas, the Moroccan war minister, for the immediate installation of police at Tangier, in accordance with the terms of the Algeiras convention, namely, native police under French-Spanish instructions. The ultimate outcome of the struggle between the rival sultans of Morocco is a matter with which the French government is not concerned, the mandate of France and Spain being limited to the restoration of order and security at the Moroccan ports.

Owing to a misunderstanding on the part of the tribesmen outside of Mazagan as to the cause of the booming of guns during target practice by the French cruiser Gondo, the European residents of the town had a narrow escape from massacre. The cruiser went out for practice without notifying the authorities of her purpose, and as soon as the guns were heard the tribesmen believed that the troops were about to occupy the town, and galloped in to secure their share of the pillage as they did at Casablanca. The Jews and European residents were quite defenseless, and became panic-stricken. The guards saved the situation. With great presence of mind they shut the town's gates before many of the tribesmen got in, and only a few Jewish shops were pillaged.

Protocol Signed.

Washington, Sept. 18.—A protocol was signed at the state department by the diplomatic representatives of the five Central American republics accepting the invitation of the United States and Mexico to meet here at an early date to negotiate an agreement providing for permanent peace between the countries represented. The protocol was signed in the presence of Acting Secretary Adee of the state department, and Minister Godey, charge d'affaires of the Mexican embassy.

DIES IN WRECK FOR WHICH HE IS BLAMED

WRECK OF TWO PASSENGER TRAINS ON THE NEW HAVEN ROAD. NEW HAVEN, Conn., Sept. 18.—Two passenger trains on the Naugatuck division of the New York, New Haven and Hartford railroad met in collision on a single track siding just after eight o'clock on September 15, between Abington and Tyler City, four miles from this city. One man was killed and ten others injured.

THAW TO DEMAND IMMEDIATE TRIAL

New York, Sept. 18.—When the central branch of the supreme court opens next month and the case of Harry K. Thaw, charged with the murder of Stanford White, is called, Martin W. Littleton, senior counsel for the defense, will demand immediate trial for the accused Pittsburgher. District Attorney Jerome, it is understood, will oppose an immediate hearing of the case, and on the question of the date of trial will come the first skirmish of Thaw's new defender with the representatives of the state. It is believed that in the end both sides will agree on a date in December for the trial.

INSANE MOTHER DROWNS HERSELF AND DAUGHTER

Los Angeles, Cal., Sept. 18.—Driven insane by brooding over her ill-health and the protracted absence of her husband in Iowa, Mrs. Anna Baker, 31, left the home of her brother-in-law accompanied by her 7-year-old daughter and proceeded to the shores of Johnson lake, in the eastern city limits, where she hurled both herself and daughter into the deep waters of the lake. The woman left the following note: "I want to save my dear little darling from this world. You will find us in Johnson's lake. Telephone to some friend of ours in Streator, Ill."

A Lehigh Valley express train was wrecked near Pottersburg tunnel, in New Jersey, 13 miles from Easton, Pa. Thirteen persons were injured.

BURTON PUBLISHES LETTER RECEIVED FROM PRESIDENT

IN WHICH HE URGES THE CONGRESSMAN TO MAKE THE RACE.

Against Tom L. Johnson for Mayor of Cleveland—Issue Not Complicated With National Politics.

Cleveland, O., Sept. 18.—Congressman Theodore E. Burton issued a statement discussing the so-called national phases of the coming municipal election in Cleveland, in which he is the Republican nominee for mayor, and making public for the first time the letter of President Roosevelt, who urged him to accept the local Republican leadership in opposition to Mayor Tom L. Johnson. Mr. Burton says the mayoralty campaign is not complicated with national politics, and that his aim is to "redeem the city of Cleveland from a ring." He gave out a copy of the letter he received from President Roosevelt. It reads:

My dear Mr. Burton—You put a hard question to me in your letter to Mr. Loeb. There are certain qualities of leadership you possess which could not be supplied by any one else in the house, and you have a mastery of certain subjects such as no other man in the house can hope to attain. For you to leave the house, therefore, would mean that in certain lines of leadership there would be a loss that can not be made up. I therefore would be tempted to protest against your leaving if it were not for my profound conviction that it is exceedingly desirable that you should win out as mayor of Cleveland. In view of the fact that our democratic system under you has the most severe strain in the government of our cities, I feel that it is of the utmost importance to have a man of your experience, power and your long training, theoretical and practical experience in public life take such a position as that of the mayoralty of Cleveland. I should say, make the fight.

ON BOUNTY OF THE GOVERNMENT

The Aged Parents of Leon Czolgosz, Assassin of President McKinley, Are Now Living.

Cleveland, Sept. 18.—Old and infirm, Mr. Czolgosz and his wife, the parents of Leon Czolgosz, the slayer of President McKinley, were today placed on the books of the out-door relief department of the city for immediate and continuous relief. The father is 83, the mother 75, and both children are so burdened with their children's families that they cannot relieve their parents.

"They are obviously in need of aid," said Rev. Mr. Godey, head of the charitable department.

The aged parents of the assassin live in two small rooms, for which they pay \$3 a month.

William Edwin Taft, cousin of Secretary Taft, will wed Miss Louise Elizabeth Jones, a well-known social woman of Lincoln, Neb.

JAP AMBASSADOR WANTS TO RESIGN

Tokyo, Sept. 18.—It is understood here that Count Inoue, Japanese ambassador to Germany, has indicated his desire to resign his post at Berlin. Rumors are rife as to his successor, and Viscount Aoki, now ambassador of Japan at Washington, has been mentioned as a possibility. The Japanese foreign office, however, is not prepared to make any official statement on the subject. Should Aoki desire a change it is possible that Baron Kanebo may be made ambassador at Washington.

SEARCH PARTY FAIL TO FIND THE EXPLORER

Edinburgh, Sept. 18.—Some anxiety for the safety of William Bruce, the Arctic explorer, was caused by the receipt of a telegram at the office of the Scottish Oceanographical laboratory from Aagaard, Norway, stating that the steamers sent in search of Mr. Bruce had failed to find him. Mr. Bruce started on an exploring trip along the north coast of Prince Charles foreland, with three companions, and has not been heard of since. The steamer Express, which recently was at Spitzbergen with the Wellman expedition, found traces of one of Mr. Bruce's camps at the end of August, but there was no sign of Bruce or his companions.

DEMOCRATS

ELECT STATE OFFICERS IN OKLAHOMA ACCORDING TO RETURNS.

Prohibition Clause in the Constitution Carries With the Adoption of That Instrument.

Oklahoma City, Sept. 18.—Returns received from the larger cities and counties of Oklahoma and Indian Territory indicate that the adoption of the proposed new state constitution by a large majority that the prohibition clause of the constitution, which was voted on separately, has also been ratified, and that the Democratic state ticket, headed by C. N. Haskell for governor, has been elected over the Republican ticket, headed by Frank Harvey, the present territorial governor of Oklahoma. The voting was very heavy. Several days will elapse before complete returns are in. The new state elects five congressmen.

New Jersey Democrats.

Thomas A. N. J. Sept. 18.—Former Mayor Frank S. Knickerbocker, of Trenton, was nominated for governor by the Democratic state convention on the first ballot.

Cotton Brokers Fail.

New Orleans, Sept. 18.—The suspension of the firm of L. H. Harbo & Company, cotton brokers, was announced on the floor of the Cotton Exchange here, inability to collect margins is said to be the cause. Members of the firm say their liabilities will not exceed \$20,000. The failure is not regarded on the exchange as a serious one.

OFFICER CRAZED IN JEALOUS RAGE SHOT HIS WIFE

AND THEN TURNED THE SHOOTING WEAPON UPON HIMSELF WITHOUT EFFECT.

WOMAN SAVED HIS LIFE

By Dashing the Pistol Aside, Receiving the Third Bullet When the Gun Was Discharged.

New York, Sept. 18.—Mad with jealousy of the girl for whom he had given up a military career, country and wife, Lieut. Julius Hoffman, late of the Austro-Hungarian army, early today shot Miss Draga Seigel, his former fiancée's daughter and heiress to a \$100,000 estate, then turned the weapon upon himself, only to have the flying woman dash it from his hand.

Hoffman, a handsome man of 34, was at the police station apparently little better than a raving maniac. His wife is in Stamford, W. Va., where she had a suit pending for divorce from her husband and \$15,000 damages from Miss Seigel on the ground that the latter alienated Hoffman's affections.

Shot over the heart, through the head and in the shoulder, Miss Seigel is lying in Bellevue hospital. "I loved Julius," she moans frequently, "but he wouldn't believe me."

Hoffman spent his early life, was married, and met Miss Seigel—when a child in the province of Croatia, Hungary. The husband was embarrassed, however, by the lack of funds to maintain his position and finally determined to resign and come to America. About this time his superior officer, Col. Seigel, died, leaving his daughter Draga an orphan. The latter was a friend of Hoffman's wife and by arrangement with the executors of her father's estate, accompanied them to this country. They arrived two years ago.

It was after their arrival here that Mrs. Hoffman became jealous of Miss Seigel and after a series of quarrels left home and began suit for divorce. Hoffman didn't live in the same house with Miss Seigel, but was much in her company, and became furiously angry when he began to suspect that she cared for another.

Visiting her last night he induced her to accompany him to his own boarding place and insisted that she tell him the name of his supposed rival. Miss Seigel replied that this was purely an imaginative individual and even when Hoffman, drawing the revolver, threatened to kill her, mingled protestations of affection for himself with her prayers for mercy.

Hoffman's first shot struck Miss Seigel in the left breast, just above the heart and his second in the shoulder. The girl fell and concluding that she was dead, the former lieutenant pointed the revolver at his own head and was about to pull the trigger when Miss Seigel staggered to her feet, grappled with him for the revolver and it was discharged, she receiving the bullet in her own throat.

Horried at what he had seen, Hoffman rushed from the house to meet policemen summoned by other neighbors to investigate the cause of the shooting. The third of Hoffman's bullets rained upward and lodged at the base of Miss Seigel's skull where it was probably caused her death within a few hours.

Miss Seigel was to have come into the fortune of \$100,000 on her 21st birthday, but a few days distant, Hoffman has been employed in this country as manager of a candy factory.

PETTIBONE IS FATALLY ILL

Boise, Idaho, Sept. 18.—George A. Pettibone was unable to appear in the district court to have his case set for trial. An affidavit of the attending physician states that Pettibone is suffering from an attack of the bladder, which, unless soon checked, will prove fatal. It says an operation may be necessary, but that the patient will be unable to survive it.

battleship Alabama Crippled.

Washington, Sept. 18.—The navy department has received word of an accident to the battleship Alabama which will doubtless result in delaying the departure of the Atlantic fleet on its trip around the Horn to the Pacific. The Alabama has developed a bad crack in the head of one of its engine cylinders, and the damage must be repaired before it can undertake the long trip to the Pacific. At least four months will be required to make the repairs, which will keep the ship in home waters nearly a month after the time scheduled for departure, Dec. 15.

GRAND PAGEANT

COMMEMORATING EVENTS THAT LED UP TO THE SETTLEMENT OF OHIO.

Held at Rutland, Mass.—Gen. Rufus Putnam, Ohio's Founder, Has Descendants in Newark.

Exercises of more than ordinary interest, together with an historical pageant, were held at Rutland, Mass., last Friday, under the auspices of the Rufus Putnam Memorial Association to commemorate the events that led up to the founding and settlement of the State of Ohio. Rutland is known historically as the "Cradle of Ohio" for here lived General Rufus Putnam who planned and matured the Ohio company, which went out into the then wild Western country, and settled the town of Marietta in 1788. Putnam's old house still stands, the house from which issued the call for the convention which led to the organization of the Ohio company, and over the threshold of which the famous old soldier used to lead that company to the great Northwest. The house is now a public memorial, with its rooms admirably restored and filled with a valuable historical collection.

Friday's commemoration began in the morning with a representation of the departure of General Putnam and his party for Ohio. The party went with three ox teams, two yokes of oxen to each team, a two horse carriage and General Putnam's saddle horse. They took four cows and one bull. The party started from the Rufus Putnam house and passed through the village and back, pausing for brief exercises before the church.

A public meeting was held in the town hall at which President Carroll D. Wright of Clark college, presided. The principal address was given by Professor James K. Hosmer on the subject of "New England and the West." His address was preceded by words of greeting from representatives of the Western society of Boston and the Ohio society of New York.

Mr. Rufus Putnam and Judge E. M. P. Brister of this city are great-grandsons of General Rufus Putnam, the father and founder of Ohio.

W. D. HARRIS

Presented With Handsome Tokens of Appreciation by the Employees of Myers Lake.

(Canton News.)

MARVELOUS INVENTION CURES WEAK MEN

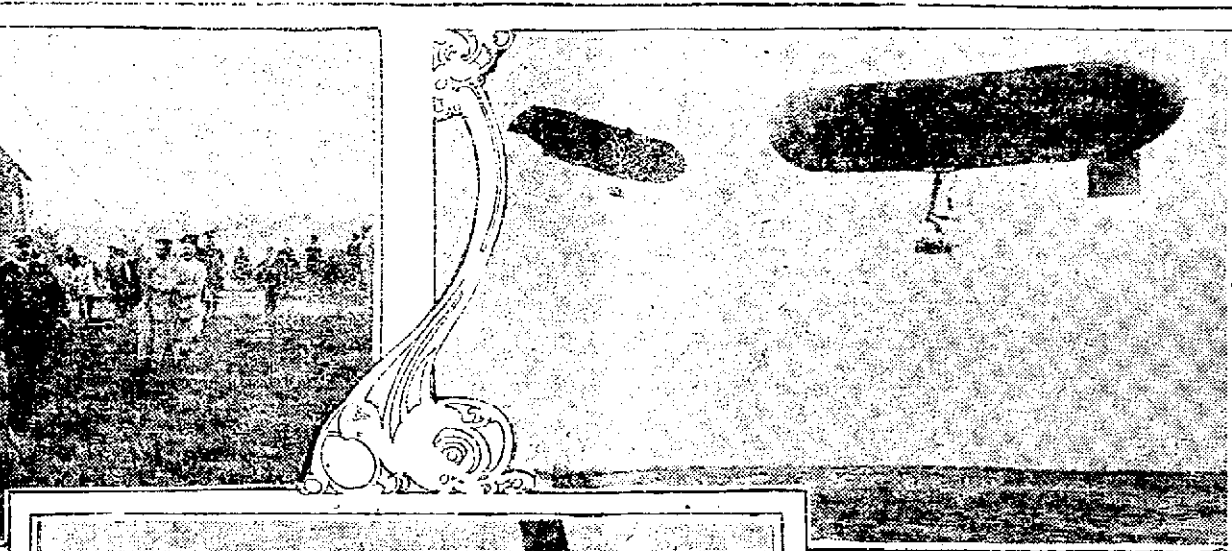

Patent Granted by the United States Government.

A new and scientific appliance invented by L. B. Hawley, M.D., will produce full manly power at first application. The effects are immediate and startling to a high degree. Develops, strengthens and cures. Lost vigor. Positively no failures. Physicians endorse and use it in their practice. If you are the least skeptical as to the value of this remarkable treatment, send for illustrated circulars, take them to your family physician and get his opinion. This is the first time any one has requested you to take his circulars to your family physician. Why? Simply because he knows your physician will not recommend his treatment. Not so with this appliance. Your doctor will immediately grasp the idea, and when he does, he will recommend it. Nothing like it has ever been sold before. It works the same on every individual. Send to-day for free descriptive circular of this wonderful instrument. The moment you see it you will realize its possibilities. No C. O. D. or free trial schemes to catch the unwary. This is a plain business proposition that will appeal to you as the greatest opportunity ever offered to those who are weak. Address L. B. Hawley, M. D., 1291, Wisner Building Rochester, N. Y.

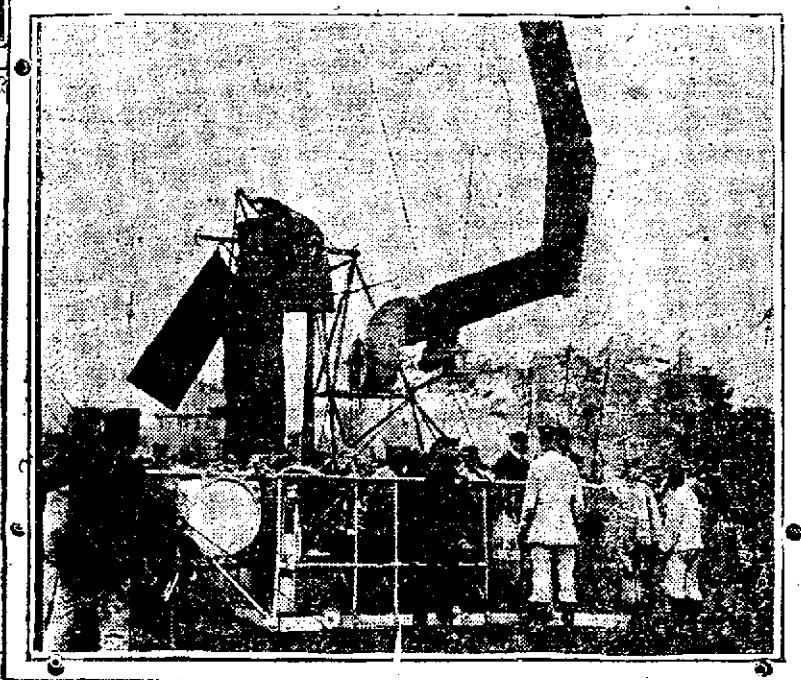

MAKING NEW LAW TO FIT AIRSHIPS.

MAJOR PARSEVAL THE INVENTOR IN THE FOREGROUND

MEETING HIGH IN THE AIR

GETTING A CLOSE RANGE VIEW

by those who have dealings with him was plainly evidenced when those employed by him at the resort and by those who have concessions on the grounds, presented the popular manager with an elegant pair of fine gold cuff buttons and a beautiful scarf pin. In presenting the gifts to Manager Harris, Walter Hoffman told of the pleasure it was to work for him, and with what regrets they left his service, also how glad they would be to enter it again.

Manager Harris was so overcome with surprise by the appreciation of good will shown that for once he lost that composure and coolness for which he is noted. Words would not come to him for some minutes, but when they did he heartily thanked the donors saying that he would always use the gifts with pride and appreciation. He also said that his relations with the employees during the season just over had always been of the pleasantest and he would ever consider those relations with happy thoughts.

If you want shoes take advantage of the Seymour & Rexroth sale. W. D. Fulton, assignee. 4-dtf

Fortune Ranges at Kellers.

REGINALD FINCKE ATHLETIC BROKER

New York, Sept. 18—Reginald Fincke, at Clark, Dodge & Co., is another of the leading figures in the

REGINALD FINCKE

"athletic group" of stock exchange brokers. While at Harvard, from which institution he has the degree of bachelor of arts, he was a member of both the varsity baseball and football teams. In both of these he was considered an adept and was regarded as one of the best college athletes of his time.

LAMP UPSET.

Ankneytown, Sept. 18—The upsetting of a common kerosene lamp in the oil room of J. E. Adams' general store Monday evening cost the firm the store, home and large elevator, filled with about 2,500 bushels of wheat.

In all the capitals of the military nations of Europe this summer has been an eventful one in the circles particularly interested in airships, and almost daily the flying machines have been hovering, traveling and circling over Paris, Vienna and Berlin. But it is in the latter city that there has been the most enthusiasm.

The success achieved by the German military balloons continues and ascents are made almost every day when the weather permits. The new airships are built according to the plans of Major Gross, commander of the ballooning corps, and Major von

Parseval. Major Gross has the reputation of a first class aeronaut both in theory and in practice, he having devoted almost the whole of his military career to that branch of the service.

The details of construction of the new airship are jealously guarded, but photographs have been taken under the most difficult circumstances. Major von Parseval's new balloon has been fitted with a more powerful and better motor, enabling it to make faster time. The machine has circled around the emperor's palace, in the face of a high wind, at a height of about 1,800 feet.

ment of the university is largely due to the personal efforts of the Dean, Arthur L. Judson, who has done wonders for the cause in Denison and this part of the state.

On Friday evening of this week the first meeting of Irving Literary society will be held in Irving hall for the year 1907-08, when an excellent program will be rendered. The present year promises great things for Irving.

The indications are that Doane academy will have on the gridiron this fall a football team that will reflect credit on the school. A large number of men are trying for positions and it looks as though some excellent material will be developed.

The Betas have pledged William Pfeiffer, Ralph Elvin, Ralph Priest, Harold Anderson, Judson Chissold and Richard Hooper.

Never can tell when you'll mash a finger or suffer a cut, bruise, burn or scald. Be prepared. Dr. Thomas' Electric Oil instantly relieves the pain—quickly cures the wound.

The Consumers' Brewing Co. is brewing a very fine bottle beer. It is particularly recommended for the family trade. When you order be sure you get Consumers, the beer that is brewed in Newark. 23mwtf

210 MILES ON 10 GALLONS OF FUEL

Four Cylinder Ford Makes a Hard Run Through Mud to Galesburg.

The economical qualities of the Ford four cylinder Model N runabout were demonstrated in a recent run made from Chicago to Galesburg, a distance of 210 miles by road, by C. G. Sinsbaugh of the Chicago Motor club. Ordinarily 210 miles would be

considered only an extra good drive, but in this case the weather conditions made it an exceptional performance, so Manager Hay of the local branch is well pleased with the showing of a gasoline consumption of ten gallons, exactly 21 miles to the gallon. The route followed was through Aurora, Mendota and Princeton, and up to Princeton the roads were fine. But at this point the Ford ran into rain, and those who are familiar with the stretch of road between Princeton and Galesburg know it is a dirt road, which becomes tough going after a rain. In this case the highways became exceedingly heavy, and of the last 60 miles probably half was covered on the low gear, getting through the mucky spots in the valleys between the many hills at the other end of the route.

NEWARK WILL WIN SAYS THIS SEERESS

Harry Lytle, one of the most enthusiastic fans in Newark, received word from four of his friends who are on an automobile trip to Lansing, Mich., that they had consulted an eminent Russian seeress at Fostoria, named Madame Saliska Frederisky, and she stated that from a study of the chart, Newark was bound to win the O. P. pennant.

The party is composed of the three Franks, Catt, Locke and Graef, and Fred Buck, and they are having a great trip. They state that the roads which they have traversed so far are in splendid condition and they are

making good time. Mr. Lytle will probably join the party at Toledo for the trip back to Licking county.

TO-DAY'S MARKETS.

LIVE STOCK.

Chicago.

(By wire for the Advocate.)

Chicago, Sept. 18.—Today's cattle: Receipts 20,000; estimated for Thursday 7,000; market weak to 10c lower. Prime beefs \$5.30 to 7.15; poor to medium \$4.00 to 5.50; stockers and feeders \$2.65 to 4.40; cows and heifers \$2.50 to 6.35; canners \$1.50 to 2.40; Texans \$1.25; westerns \$1.10 to 2.25.

Hogs: receipts 20,000; estimated for Thursday 15,000; market strong and 5c higher. Light 6.00 to 6.55; roughs \$5.25 to 5.50; mixed \$4.05 to 6.50; heavy \$3.40 to 6.25; pigs \$5.00 to 6.35.

Sheep and lambs: receipts 32,000; estimated for Thursday 12,000; market 10 and 20c lower. Native sheep \$3.00 to 5.50; western sheep \$2.00 to 5.50; native lambs \$4.75 to 7.50; western lambs \$4.75 to 7.50.

Pittsburg.

(By wire for the Advocate.)

Pittsburg, Sept. 18.—Today's cattle: supply light and market slow. Choice \$5.35 to 6.50; prime \$5.00 to 6.25; good \$4.35 to 5.40; tidy \$3.35 to 5.25; fair \$3.00 to 5.10; heifers \$3.00 to 5.00; bulls \$2.25 to 4.50; fat cows \$2.00 to 4.25; good fresh cows and springers \$2.00 to 3.00.

Sheep and lambs: supply light; market steady. Prime wethers \$5.00 to 5.55; good mixed \$3.25 to 5.50; fair mixed \$4.00 to 5.10; culls \$2.00 to 3.00; lambs \$5.00 to 7.50; heavy and thin \$4.25 to 5.50.

Hogs: receipts 10 double decks; market slow on pigs. Prime heavy \$6.50; medium and heavy \$5.50 to 7.00; light Yorkers \$4.50 to 5.50; roughs \$3.00 to 5.75; stags \$4.00 to 4.50.

Must Yield

An Experience of 48 Years.

Skin and Blood Diseases are twin sisters of corruption, disfigurement and ill-health. They cannot exist together separately and can only be effaced by a radical system of medication which will give external relief and purify internally. PALMER'S "SUCCESS" SYSTEM OF TREATMENT provides all these elements and has a record of cures which is astonishing to those who have not tested its merits. Mr. C. O. Gerard of Washington, N. J., writes as follows:

"I have known Palmer's 'SKIN-SUCCESS' Remedies for about 48 years, as my father used them at that time and was greatly benefited. I have cured a number of bad cases of Tetter and Eczema, many of them of long standing that had more than tried the skill of eminent physicians. Some of the parties had spent a sum of money without obtaining any relief. A lady of this town whom I well know suffered with Eczema in its worst form and had tried many physicians and remedies, and finally gave up all hope of ever securing any relief. Her face was so bad she never went from her home. I cured her entirely with these remedies in a short time, to the surprise of every one. That was five or six years ago, and there has been no return of the disease. She cannot recommend the Palmer Treatment too highly to any one afflicted as she was, and I gladly substantiate her claims."

PALMER'S "SUCCESS" SYSTEM OF TREATMENT is equally effective in all other Skin and Blood Diseases, such as Erysipelas, Scrofula, Salt Rheum, Itch and Oak Poisoning, Psoriasis, Acne, Blackheads, Pimples, Eczema, Ulcers and Old Sores, Piles, Constipation and Liver Complaints.

PALMER'S "Skin-Success" Ointment, 25c; "Skin-Success" Soap, 25c; "Blood-Success," 25c; \$1.00.

BOWSER THE MARTYR

Has Sewing Bee, in Which He Does Much Needed Repairing.

REJECTS THE HELP OF WIFE.

Revels in Buttons and Patches While Looking Upon Himself as a Greatly Abused Man—Leaves His Home For the Street to Drown His Sorrows.

[Copyright, 1907, by Homer Sprague.]

Mrs. Bowser needed but one look into Mr. Bowser's face as he pushed home the other evening to show that something was out of gear with him.

His shoulders humped up, his under lip stuck out, and he had the sulkiness of a boy going to a licking.

In reply to her statement that he was fifteen minutes late he took from his pocket a ball of red twine and three darning needles and muttered that he had to stop at a store and buy them.

"But what on earth are they for?" she asked.

"You will see after dinner."

"Weren't things right at the office today?"

He grunted in reply.

"Have you got a cold or one of your headaches?"

"Never mind me. I am of no account in this world."

"But if you had a chill or anything of that sort I want to know it and send for the doctor."

"Never mind if I have a dozen chills and will be in my grave ere a week has passed. As long as one is not appreciated in this world he'd better be dead."

Felt That He Was a Martyr.

Mrs. Bowser realized that the time had come around for Mr. Bowser to feel that he was a martyr. All his

bands get that feeling two or three times a year. No one exactly knows what brings it on, but it is sure to come, and no dandelion tonic will ward it off.

She wanted to laugh and gossip, and she did to some extent, but he ate his dinner in solemn silence. Even when she told him that a tramp had entered the yard and was smoldering the terra cotta stone dog and bearing it off on his shoulder when she caught him Mr. Bowser maintained his sad and solemn expression.

When dinner was over and they went upstairs he made a great show of the twine and the needles and presently threaded the latter and sat down and pulled off his shoe and sock. The latter had a hole about as big as a dime in the heel.

The hole had not worn there, but had been made as the sock was pulled on.

"If you want that sock darned hand it to me," said Mrs. Bowser as she reached for it. "How you could get a hole like that in a new sock puzzles me. I paid 50 cents a pair for them."

"I won't trouble you," was the reply. "It was told years ago that the time would come when I'd have to darn my own socks, and now it is here."

"But you aren't going to darn them with red string, are you?"

"Anything is good enough for me. I can go around all day in perfect agony and what is it to you? Yes, I am going to darn them with this red twine, and if I fall dead tomorrow and am taken to the morgue the keeper will see what a wife I had and how I must have suffered."

He thereupon began darning the same as if mending a fishnet, and after ten minutes' work he had a wad of that would have rubbed the heel off an ox. He held the sock up to view and turned it around and viewed it from all sides and then, with a sigh, laid it aside and produced a loose pants button from his pocket. One of his suspender buttons had snapped off, and he was going to replace it.

"Just let that alone till you go to bed, and I will sew it on in a jiffy," said Mrs. Bowser. "You didn't say anything about a loose button this morning or it would have been fixed then."

"When one has talked and talked for twenty years, what's the use of talking any more? The button has been loose for months and months, and I have been waiting to see if you would notice it. Today as I bent over in the street car to pick up a cent dropped by a lady off went the button. Two working girls giggled about it, and I heard one of them say that the old man was coming all to pieces. I tell you this, but of course you can't understand my humiliation. It is a sad, sad house, but I must put up with things until Providence sees fit to remove me."

Sewed on the Button.

Mrs. Bowser had to get up and go down the hall to do her laughing, and

meanwhile he was busy with the button. After the darned needle had drawn the twine through the eyes once all the room was taken up, but he cut off the twine and called it a job. He then pulled off the other shoe and looked at the other sock. There was no hole in it, but he made one and sighed heavily as another wad of twine appeared. When he had dressed his feet again he went off upstairs and brought down his nightshirt and a button that had come loose from his winter overcoat.

"What's wrong with that shirt?" asked Mrs. Bowser.

"Button off, of course," was the reply. "It's been off for the past four weeks, and that is what brought this case of bronchitis on me. I haven't said anything because I'm lazy."

"Look here now, but when that shirt came home from the laundry three days ago the buttons were all there and all tight. I looked them over, as I always do. When you took the shirt off you gave it a pull and sent the button flying. It must have been the one I found on the floor yesterday."

Mr. Bowser sighed and drew his hand across his eyes as he placed the big horn button opposite the small buttonhole and prepared to sew it on.

"For the land's sake, but don't do that!" exclaimed Mrs. Bowser. "Can't you see that the button is forty times too large?"

"I am only too thankful to get any kind of button," was the reply, accompanied by several sad and solemn shakes of the head.

Button Was Too Big.

"That's all nonsense! I said that shirt over to me. You have three or four more and don't need to put this on at all."

But Mr. Bowser stuck to his tailor job and sewed on the button. He knew that it would never go into the buttonhole, but he would have it there for an ornament anyway. The effect of the red twine on the white background was picturesque, to say the least.

When the work was finished he departed upstairs again. This time he rummaged around for a quarter of an hour before he descended, but he had put in his time to good advantage. He had found an old pair of trousers and had cut a patch out of an old vest.

"Well, what is it now?" asked Mrs. Bowser.

"These trousers have needed patching for the last five years, but you haven't had time to do it. I shall now do it myself."

"But they are an old pair that you keep to work around in."

"The principle of the thing is just the same."

"There's no principle about it. If you use a blue patch on a green ground all the boys in the neighborhood will be gazing you the first time you step outdoors."

"Then the boys will be informed that I have to do my own sewing or there wouldn't be any done. Don't bother, Mrs. Bowser. Just keep your nose in that novel and never mind me. Blue patches on green grounds are good enough for your husband. He hasn't long to live anyhow, and what's the odds whether the patches are blue or black or green?"

Wiped a Tear Away.

Mr. Bowser snuffed and sniffed and wiped a tear away, and as he began to fit a patch eight inches square to a hole not over two inches in diameter and sew it fast with the red twine Mrs. Bowser could control her feelings no longer. She burst out laughing, and it was three or four minutes before she could control herself. Then Mr. Bowser was looking at her with a cold glare. He kept it up for two long minutes and then laid the half patched trousers aside and said:

"I am not only neglected, but insulted in my own house, and human nature can stand no more."

"But I had to laugh. I think that patch is the funniest thing I ever saw. Why, even the cat!"

"Mrs. Bowser, I am going out. I am a homeless man, and where I shall go heaven only knows. Perhaps when I am brought home dead and you gaze into my white face you will cease your merriment and realize that you are responsible for the death of a good man. Good night, Mrs. Bowser—woman, good night!"

She tried to stay him, but in vain. He left the house for the street with tears in his eyes and wandered up one street and down another, and the south winds sighed and moaned, and the crickets called to each other that all was lost, and the policeman on his lonely beat stopped him to say:

"Look here, old man, I've got my eyes on you, and if you try any monkey work in this neighborhood I'll make your heels break your neck. What's an old cove like you doing on the street at this hour of the night anyway? Move on with you!"

- 1906—Typhoon at Hongkong; deaths estimated at 10,000 and property loss \$20,000,000.

Y. M. C. A. STAR COURSE

The Association Announces Eight Numbers For the Coming Season.

The Young Men's Christian Association will this year again conduct an entertainment to which the public and friends of the institution are invited. The course will be managed entirely by the association this year. The committee in charge of the course is Messrs. J. D. Simkins, J. M. Keckley and Dr. W. S. Turner.

The list of attractions indicate that this is a well-balanced course, and should prove one of the best ever booked in Newark.

By close bargaining and the elimination of any profit idea the committee have been able to announce the very low price of \$1.50 for the course for seats down stairs and the first three rows in the balcony. Back of the first three rows in the balcony the price is \$1.00 for the course.

The large patronage of last year has made it possible to thus quote an exceedingly low price for a fine course.

There are just 500 tickets to be sold and it is expected that these will all be sold early.

Tickets can be secured at the Y. M. C. A. by call or telephone.

Following is the list of attractions and dates:

October 24—Concert Favorites. An all-star attraction.

November 27—Edmund Vance Cooke. Poet of national reputation.

December—Dr. H. W. Sears, "The Taffy Man."

January 21—John Temple Graves, the South's greatest orator.

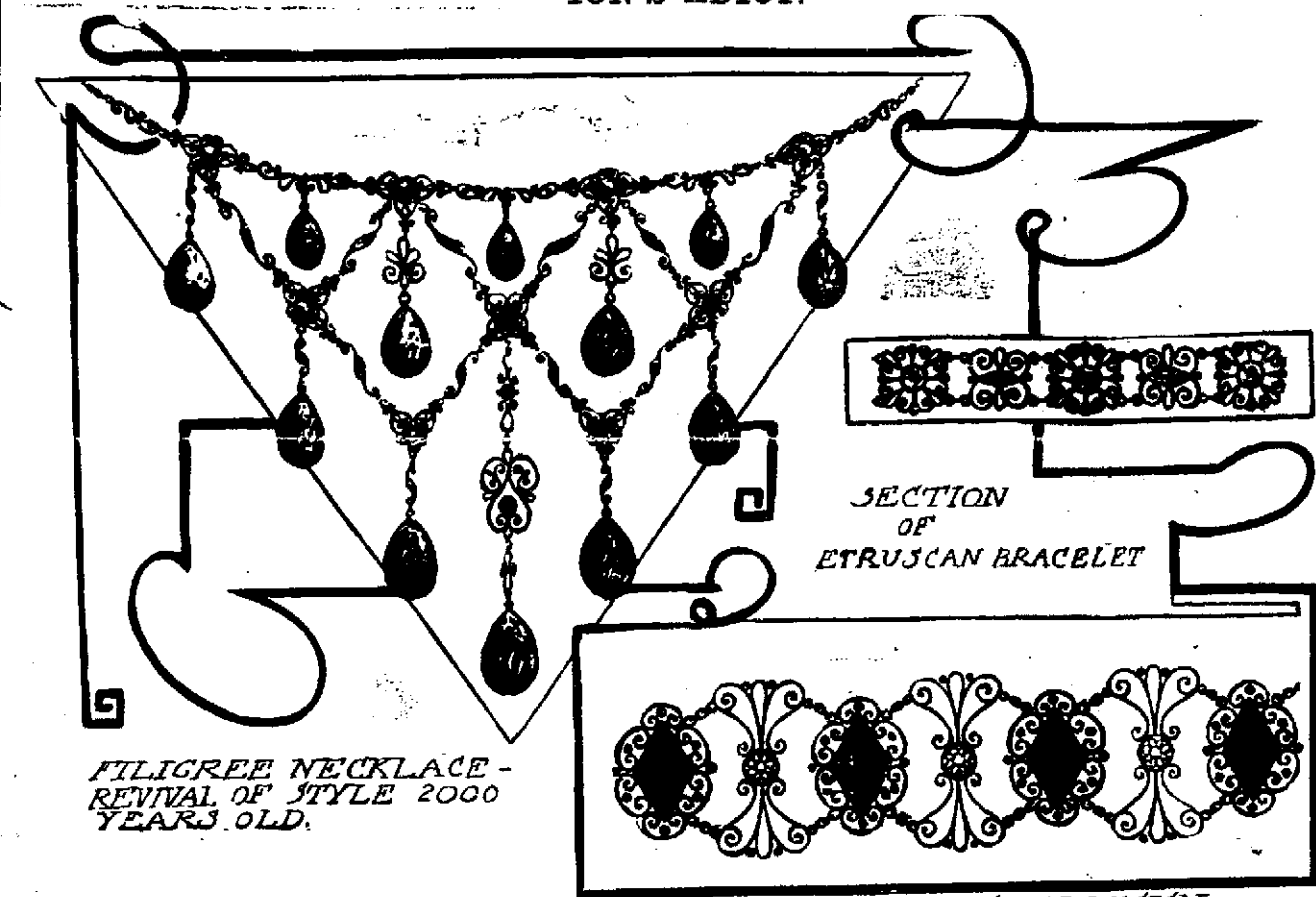

February 6—Ralph Parlette, lecturer and humorist.

February 19—Chicago Glee Club. Male quartet. None superior.

March 24—Herbert Leon Cope, humorist.

April 20—Apollo Quintette and

ABUNDANT JEWELRY FOR WOMEN, BUT NONE FOR MEN IS FASHION'S EDICT.

New York, Sept. 13.—More jewelry for women, less for men.

Such is the edict from the oracles that dominate the deep and mysterious recesses of the jeweler's trade.

Milady may load herself down with trinkets in gold and precious stones at any hour or with any costume and be in perfectly good form. But mere man is allowed only a watch fob and a stickpin, with one special concession—faucy waistcoat buttons.

Fashion moves cautiously in the elusive Fifth avenue jewelry shops. Its changes are made by gradations, not by arbitrary and radical dictates. Hence it happened that one of the most learned students and dealers in ultra-exclusive jewelry had to ponder before he answered the question, "What are the very latest fashions in jewelry?"

"Reduced to a phrase, I would say the latest thing is jewelry costing," he said. "By that I mean

the striving for perfect harmony between gown and jewelry.

Formerly a woman who possessed a fine set of diamonds wore them with all her costumes—that is, at night. Diamonds and other precious stones were bought for their gem value. Now she must wear jewelry distinctly appropriate to the particular gown. Today if the costume be Empire she must wear raria and pendant earrings in Empire style or none at all. Further than this, the precious and semi-precious jewels a woman of fashion wears must harmonize in color as well as form of setting. The jewelry must be a part of the general color scheme.

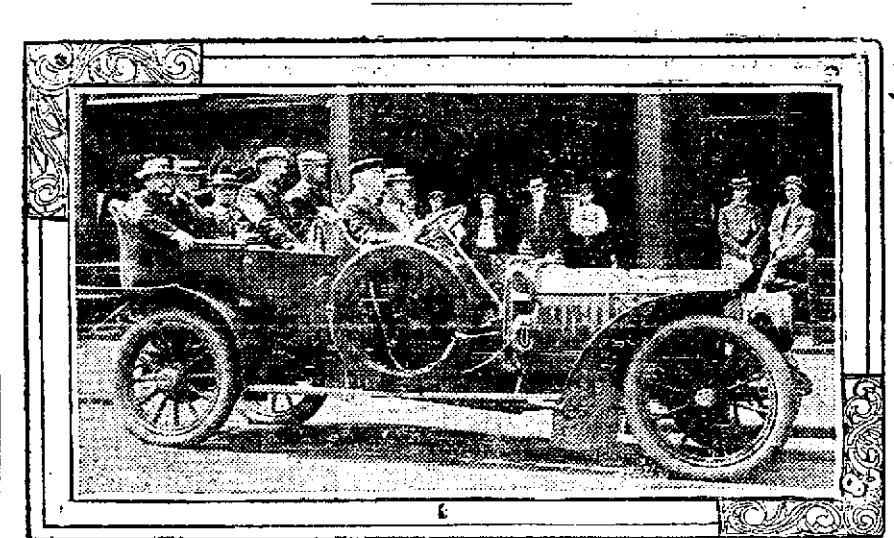

"This mandate from those 'who must be obeyed' in such matters has led to creations of new fashions in the best class of jewelry. The use of small diamonds in 'calibre' or cut square to a certain gauge and set with colored stones is gaining. Instead of a piece being set with round stones, with spaces between

it now is 'paved' with square stones, set edge to edge, making a solid, glittering mass. The stones used for this purpose are mall, some of them 'paving' diamonds, running 500 to one carat of weight. This practice permits of the multiplicity of form and color demanded by the creations of the costumer.

Naturally 'jewelry costuming' has brought into favor all the colored precious and semi-precious stones. Aqua marine, amethyst, topaz, jade—anything to get the color effect desired for special costumes. The result is the necessity for material additions to the jewelry collections of women of fashion.

Among the most exquisite novelties are the necklaces, bells, and dog collars of plain black silk ribbon or velvet and supplied with clasps and designs in diamond 'paving' set in platinum. Attached to these necklaces are diamond 'paved' watches of incredible thinness.

THE PEERLESS, LATEST SIX CYLINDER CAR.

New York, Sept. 18.—As the result of two years of careful study, Charles Schmidt, designer for the Peerless, has completed a six-cylinder car for fifty-seven horse-power. Its motor construction is along the same general lines as the new '30' model for the season of 1908. After severe tests and tryouts already given the car, E. H. Parkhurst, vice president of the Peerless company, left Cleveland Wednesday morning for a tour through the east.

GERMANY'S NOTE ON FRANCO-SPANISH MOROCCAN POLICE FRENCH CALL VETO.

Paris, Sept. 18.—The wording of Germany's formal note of acceptance in the matter of the proposed Franco-Spanish military policing of Moroccan ports as a substitute for the Moorish police prescribed in the Algeiras agreement, calls forth varying and some caustic comments from the French press.

The Temps remarks: "If this is a reproach intended for us it is unwarranted. The people who complain of the bombardment would have run a great risk of losing even the possibility of complaining if our cannon had not protected them."

The Temps believes that enough troops will be sent to Morocco to insure the safety of all inhabitants.

La Presse declares that the German note has created a profound impression in diplomatic circles in form. It shows clearly that Germany would view the occupation of Moroccan ports by France with an unfavorable eye. This note is, in fact, a veto in disguise.

The Journal des Debats avers it is impossible not to gather the impression that Germany, not being able to oppose the policing measures clearly necessary, still views with 'unbecoming grace' the restoration of order by the Powers authorized at the Algeiras conference.

Cash for Bad Accounts

If you want your slow and stale accounts turned into cash, we are here to help you. We have an effective organization for the skillful handling of hard accounts

NOW IS THE TIME. The Fall is the best time of the year for pushing hard accounts. Look over your books and pick out the delinquents. Don't wait till the end of the year, the dead of winter. You should take the time now to attend to your accounts.

YOU WILL BE WELL REPAID. While you are busy with your fall trade, we will be busy collecting your bad accounts. Our charges are purely contingent. When we don't collect, it doesn't cost you a cent. When we do collect, it costs you less than you lose by allowing your accounts to depreciate by neglect.

BARNS BURNED WITH THE CONTENTS

Causing a Loss of \$700 on One and \$1200 on the Other—Poultry Killed by Lightning.

During the electric storm of Tuesday night, lightning struck a barn belonging to Clarence Keckley, near Highwater, setting fire to it, and burning it to the ground, together with all its contents, including about 20 tons of hay. Loss about \$700.

Another barn belonging to Ed McNamee, on Dutch Lane, was also struck by lightning, burning to the ground with all contents, consisting of hay, grain, farming implements, etc. The loss in this case will be \$1200 or \$1500 covered by insurance.

A house belonging to Nathan Householder, also on Dutch Lane was slightly damaged by lightning.

During the storm in this section the lightning played a peculiar freak, striking three chickens belonging to Lorenzo Gosnell, two miles southwest of Highwater, that were standing within a foot of the house. Two of the chickens were killed and the other one was stunned, and is still suffering from the effects of the shock.

ANOTHER BARN BURNED.

Croton, O., Sept. 18.—Lightning struck a barn on the old Jacob Van Fossen farm about three miles east of here on Tuesday night and all the contents and the building were destroyed with the exception of the horses, which were rescued. The farm is tenanted by Jesse Walker, and he was in the barn when the lightning struck, but he was only stunned. The loss is estimated at \$300 with a light insurance.

The house of Abner Evans, situated in the village, was struck on Tuesday evening during the storm, but the fact was not discovered until this morning, as the room was not entered last night. This morning the room was found to be badly shattered.

Contract Renewed.

A determined effort was made last spring to launch Patehogue, N. Y., into a municipal waterworks project. A special election held to act in the matter resulted in renewing the contract with the company for twenty years. The village clerk writes that the vote was largely in favor of this action.

Beating the City Plant.

Ruralites have a scheme to beat the municipal plant to a frazzle. There is no charge at Eaton Rapids for porch lights when next to the street. So out go the lights in the house after supper, and the evening paper is read on the porch in the midst of myriads of bugs. But it's cheaper.—Detroit News.

\$25 REWARD

For any dental work we can not do without pain. Your teeth are just as important as your stomach. If they are not in a healthy condition you can not masticate your food, and if your food is not properly masticated, your stomach can not digest it. Chronic indigestion and all its attendant nervous troubles come from bad teeth. We will restore your decayed teeth and put you on the road to health at a very reasonable cost.

Akron at Sharon.
New Castle at Youngstown.

The locals beat out the Mansfield Tigers in the ninth inning Tuesday afternoon in one of the greatest pitchers' battle ever seen at the park. Manager McVey had telegraphed to Canton for help and Ferd Drumm, the ex-Marion manager responded, bringing with him Shortstop McGrew of the Canton team of the Central league. And my! what a help they were. It was a different team of the day before that the Molders had to face. But Manager Berryhill's boys were equal to the occasion and they pulled one off the grate at the last moment. The victory, with Akron beating Youngstown the same date, puts the Newark aggregation once again at the head of the percentage column in the O. P. pennant race and demonstrates the fact that we have one of the fastest clubs in the baseball business.

Manager McVey's selection for the mound was a sturdy spit ball artist by the name of Harry Lloyd and he surely had everything up his sleeve that could be desired by the most critical of managers. He only allowed us one stingy little hit in the first four innings, one each in the fifth, sixth and seventh, none in the eighth and then we got to him for two in the ninth, each doubles and they settled the business and put us back where we belong, and where we so successfully stayed for many days this summer.

Manager Berryhill sent in Uncle Joe Locke to officiate in the box for the Molders and he certainly did pretty work, allowing four measly hits, one in the second, fourth, eighth and ninth. He tightened up and hung out the sign, "No deadheads allowed," and it was respected, too, for not a Tiger walked. The whitewash man was kept quite busy hanging up 17 ciphers, and then we broke the hoodoo in the grand round up in the ninth.

Drumm and McGrew pulled off some sensational stunts for their Mansfield brethren, the former accepting eight chances and the latter five. Neither erred and McGrew biffed out a double in the eighth, and it looked dark and dreary for the home boys when Reynolds sacrificed him to third. It certainly was a great relief when Sandy Murray pulled down Lawrence's fly and caught McGraw before he could get back to the sack as he had taken a good lead for home. It again looked bad in the

ninth when the spit ball artist singled and Biery came to bat. Lloyd went out on the line, but Sandy couldn't double on Biery, although he would undoubtedly have done so had not the foxy one ran off the line a couple of yards. Biery stole second, and McGraw undertook to send him home. The Angel one was not equal to the emergency and breezed, Breyer having previously fled out.

"UNCLE" JOE LOCKE.

Who never faltered before the attempts of Mansfield to solve his delivery.

there was nothing doing, and Bob's boys turned the trick in the next time up in this manner: Abbott went out, Drumm to Biery. Snyder drew a pass and Wratton doubled. "Red" Davis, followed suit with a repeater and the fire was out, Snyder trotting in across the rubber. The score:

Newark	ab.	r.	h.	po.	a.	e.

One out when winning run was scored.

Score by innings:
Newark . . . 0 0 0 0 0 0 0 1—1
Mans . . . 0 0 0 0 0 0 0 0—0
Summary:
Two base hits—McGrew, Wratton, Davis.

Double plays—Reynolds to Drumm to Biery; Drumm to Biery; McGrew to Biery; Murray to McClintock. Struck out—By Locke 2; Lloyd 2. First base on balls—Off Lloyd 2. Time—1:20. Umpire—Smink. Attendance—400.

Akron, 7; Youngstown, 1.
Akron, O., Sept. 18.—"Lefty" Boyle had Youngstown at his mercy in the first game of what was to have been a double-header yesterday, allowing but three widely scattered hits. The visitors' only run was a present by Mickey Lalonge, who pegged wild to Schwartz with two down. Billy Thomas was benched for arguing with Umpire List. Akron batted the Champs' three pitchers hard. Rain stopped the second game after an inning had been played with the score 2 to 0 in Akron's favor. Another big crowd was present. Score: You'g, 0 0 1 0 0 0 0 0—1 3 3. Akron, 0 1 0 0 3 2 0 1—7 10 2. Batteries—B. Thomas, Glassburner, Ohl, Ostedek, Redman; Boyle and Lalonge. Umpire—List.

New Castle, 2; Sharon, 1.
Sharon, Pa., Sept. 28.—Sharon tried out Pitcher Bair of West Middlesex, a spit-ball twirler, against New Castle and he lost his own game by throwing over Patterson's head which resulted in the winning run.

He performed splendidly and gave only six hits, three being of the scratchy order. Seven of the visitors fanned. Judging from his work yesterday he gives promise of being the find of the season. Both teams played sensational ball. Score: Sharon, 0 1 0 0 0 0 0 0—1 4 3. X. Cas. 0 0 1 0 0 1 0 0—2 6 3. Batteries—Bair and Mattison; Bowers and Brigger. Umpire—Bannon. Attendance—500.

Lancaster, 2; Marion, 1.

Lancaster, O., Sept. 18.—Justus pitched both games of a double-header here yesterday, winning both. Each game went seven innings by agreement. This is Marion's last appearance here this season. Justus allowed but two hits in the first game, striking out eight men. Marion bunched hits in the fifth inning of the second game, scoring three runs. Lancaster scored four in the same inning off four hits, an error, a sacrifice and stolen base. Score: Lancaster . . . 0 0 1 0 1 0 . . . 2 7 2. Marion . . . 0 1 0 0 0 0 0—1 2 2. Batteries—Justus and Fox; Fox and Luskey. Umpire—Hart.

(Second Game.)
Marion . . . 1 0 0 0 3 0 0—4 7 1. Lancaster . . . 0 0 1 0 4 0 . . . 5 6 3. Batteries—Wilmot and Luskey; Justus and Piper. Umpire—Cassidy.

DRAKE STILL SLUGGING

Delos Drake, the star middle fielder of the Tigers who will be drafted by the New York Nationals, is the first player in the league to secure 150 hits. With the two base hit which he secured in the Saturday game at Lancaster he made his 150th hit. He was the first player in the league to secure 100 hits. Of the 150 hits secured by Drake ten have been home runs, 15 have been triples, 29 have been doubles while the remaining 96 have been singles. His batting average including Saturday's game is .311.—Mansfield Shield.

He didn't do much slugging in this city. In fact, come to think of it, he didn't even get a measly little single in the two games. Stoup and Locke put the bug on him.

ZANESVILLE MAKES A KICK

Zanesville, Sept. 18.—The Zanesville baseball company last night sent a written notice to President Guy of the P. O. M. league, demanding an investigation of the three last games between Steubenville and Uniontown, as a result of which Uniontown won second place. Charges have also been forwarded to the National association against Manager Stetler of the Steubenville club.

JOHNSON WILL PROSECUTE THE POP BOTTLE THROWER

St. Louis, Sept. 18.—Ban Johnson, president of the American league, arrived here yesterday to prosecute Hugo Duesenberg, the boy who threw a bottle which hit Umpire Billy Evans Sunday. Johnson says he intends making an example of the case, as he wants bottle throwing and similar rowdyism at baseball games suppressed. Evans is doing well and may go home Friday.

ROWDYISM AT THE AKRON BALL PARK IN MONDAY'S HOT GAME

Numerous Fights, Gun Plays, and Heaving of Anything Handy by the Frenzied Fans of Rubber Town--Women Faint and Umpire List Was Attacked.

The following taken from the Akron Times, will be read with interest by the Newark fans, especially so as the Akron papers have been unjustly accusing the Newark crowds of ungentlemanly conduct on several occasions:

"While to root loud and long is an essential part of a bug's life, it should be confined to noise-making and not to hurling missiles at the heads of the players on the visiting teams. Even this could be excused if no heavy bottles or brick bats were used, but when it comes to bombarding a delegation of visiting rooters who are sitting in the grandstand with their wives and lady friends, it is rowdyism of the worst kind.

"For many years past the followers of sport in this city have earned for themselves and the town a good name in sportdom, but this name went glimmering yesterday when a gang of hoodlums in the west end of the bleachers had grown tired of making game of the visiting players and turned to a small bunch of rooters who came over from Youngstown with the Champs.

"An exchange of hot words was followed by a shower of missiles from the bleachers and apples, eggs and pop bottles rained about the ears of the Youngstown delegation for a few minutes. One lady was struck on the shoulder with a pop bottle which was just tossed over the side of the

MEETING OF FANS HELD THIS EVENING

A meeting of Newark fans is desired at the city hall at 7 o'clock this evening to make arrangements to attend the Newark-Mansfield series at Mansfield Friday and Saturday. It is expected that from 100 to 150 fans will accompany the team to the home of the Tigers. We need the games, and your presence will be a wonderful incentive to help annex them. Come out this evening and show your loyalty by agreeing to journey to Mansfield and help root for the best team in the O. P. league.

BILL ARMOUR, OF TOLEDO, IS SCOUTING FOR PLAYERS

"Bill" Armour, proprietor and manager of the Mud Hens, of Toledo, who finished second in the American Association race, has been in the city for the past two days looking over the Newark players.

Mr. Armour is sadly in need of twirlers and he wants the best. He has given Toledo the best ball that they have ever had and his club next year is bound to be right around the top.

The writer has known the hustling Toledo manager for some time and in an interview with him Wednesday morning was informed that we have some of the best baseball material that can be found in the country. He is at the park this afternoon and will avow our twirlers work out. He has had his optics on several of them for some time, and one or more of the boys who wear a Newark uniform may get a chance to get into faster company next year.

Mr. Armour may have a new park next year, but whether he goes or not he will have one of the strongest teams that has ever been seen in the American Association.

PITCHER WATT'S RECORD

Pitcher George Watt made a most remarkable record in the P. O. M. league this season. He pitched 31 games in all, won 24 of them, tied two and lost five, giving him a percentage of .830. Included in this bunch was a no-hit game and several two and three hit games. There isn't a pitcher in the league who has worked in as many games and has a better record.

HAGAMAN'S SQUAD BEAVY

Mt. Vernon, Sept. 18.—The Mt. Vernon high school will have one of the fastest football team among the high schools of Ohio this fall. The team is being coached by Fred Hagaman, formerly of the O. S. U. squad, and a few years ago a great sprinter at O. S. U. The average weight of the line will be 162 pounds, and of the backs 154 pounds. The schedule is being completed and includes games with several Columbus high schools.

PATTERSON WILL PLAY.

The Patterson team has the date of September 22 filled, but would like to play the Brooklyn Stars at their grounds on September 29. Telephone answer to 9691 Red, Citizens phone.

stand. Another was hit with an apple.

"After the first fusillade the bleachers again turned their attention to the Youngstown players, and horns, apples, pop bottles, lemons, etc., rained out upon the field. A couple of players were hit, but the missiles were merely tossed and hurt no one.

"It was just after Umpire List called the game that a small riot started in the east end of the stand where the Youngstown delegation sat. A couple of tobacco cuds splashed up against one of the Champville rooters. He went right up and reached back as if to draw a gun. A tin pan hit him in the head. He then made for the bleacherites with a chair. By this time his friends had grabbed him and forced him back, while the bleacherites stormed the grand stand, and but for the presence of Mayor Kemple and Detective Welsh the Youngstown bunch would probably have got theirs.

"During the melee one of the ladies with the Youngstown rooters fainted after she had tried in vain to pull one of the Youngstown men back. She was soon restored to consciousness and the crowd quieted down.

"At the same time the bleacherites were storming the grand stand, Umpire List was surrounded by a mob of howling bugs. The few police closed in around him and escorted him from the grounds."

MELANGE OF SPORT.

Still soaring.

One floor higher please.

Didn't it look good though?

Akron did the right thing Tuesday.

Thanks, Walter, we'll call it even now.

"Red" Davis did the right thing yesterday afternoon.

Wratton's double put Snyder on third. "Red's" two sacker did, the balance.

Four double plays were made yesterday, three of them by the visitors.

Did you hold your breath in the eighth when McGrew, the first man up, biffed out a double?

It didn't look any too good in the ninth when Biery stole second with Speas up. Your Uncle Joseph breezed him and the fans drew a sigh of relief.

No matter where the Tigers are on the road, there is one umpire who is sent by President Morton to officiate at the games and who is well known all over the circuit as one of the rottenest in the league. Bill Smink is becoming rotten with every game that he works, and it behooves Mr. Morton to send some other umpire to Mansfield for the closing games or otherwise there may be some trouble.—Mansfield Shield.

Manager Wright says the Champs are not afraid of being doped. They can take care of themselves. Sam may taste all their food at Akron before they partake, though.—Vindicator.

Pitcher Josh of Cleveland, now ranks third in the general list of American league pitchers.

Cincinnati is now after Elberfeld to manage the Reds next season.

Flick maintains his lead as the best batsman in the American league. He is four points to the good.

Nevenpara, formerly with Akron, beat the Sandusky Stars at Lorain Saturday. He struck out eight of the Stars. The lad is showing great shape this season, having struck out 12 men a few days ago when he played against Newark.

We are now leading in one of the game fights ever put up in any league. Our boys are playing magnificent ball and we have a splendid chance of landing the rag. If we can only win the double header today things will look pretty bright for your Uncle Bob.

Harry Lloyd, Mansfield's spit ball artist, is certainly there with the goods. He only allowed four hits in eight innings and then Wratton and Davis got to him for a double in the ninth.

Shortstop McGrew, late of the Central league, certainly put up a fine game with Mansfield yesterday. He had five chances without an error, and made a very pretty double, but after being sacrificed to third was unable to score.

Newark fans are taking great interest in the Akron-Youngstown race and are wondering which club will finish second.

The Newark team has been playing around second and third place lately, but they made a home run in Tuesday's game and landed in the right spot.

HELP! HELP! HELP! If this should meet the eyes of Hughie Jennings, Addie Joss or Lajoie, they

Non-alcoholic Sarsaparilla

If you think you need a tonic, ask your doctor. If you think you need something for your blood, ask your doctor. If you think you would like to try Ayer's non-alcoholic Sarsaparilla, ask your doctor. We publish the formulae of all our preparations. J. C. Ayer & Co., Lowell, Mass.

Use 1/3 Less Baking Powder

Egg Baking Powder has 50 per cent more leavening power than other kinds.

Thus you can use 1/3 less baking powder if you use "Egg."

And that's only the beginning of its economies. You see, Egg Baking Powder is dried white of egg and wheat phosphates, and because of the egg that's in it, you save 1/2 the eggs used in baking with ordinary baking powders. The saving in both baking powder and eggs amounts to considerable money in the course of a year.

And for good measure, Egg Baking Powder also saves you all the worry because it insures against failure. It is a guarantee that you will bake light, wholesome and delicious biscuits, muffins and griddle-cakes; cake that you can be proud of.

RESOLUTION NO. 1000

Declaring It Necessary to Improve Pearl Street from Granville Street to Chestnut Street, by Paving and Curbing the Roadway thereof.

Be it resolved by the City Council of the City of Newark, State of Ohio, three-fourths of all the members elected thereto concurring:

Section 1. That it is necessary to improve Pearl Street from Granville Street to Chestnut Street, by paving and curbing the roadway thereof, in accordance with the plans, specifications, estimates and profiles of the proposed improvement, prepared by the Civil Engineer, Public Service, which are hereby approved, which shall be open to the inspection of all persons interested.

Section 2. Said material used in the construction of said improvement shall be asphalt, brick, stone, cement, or other material as shall be hereafter determined.

Section 3. That the grade of said street at its center line shall be as follows: Commencing at the north line of Granville Street, in the center line of Pearl Street, at an elevation of 114.5 feet above the established datum of the City of Newark, Ohio, thence north along the center line of Pearl Street, with an ascending grade to the south line of Chestnut Street at an elevation of 117 feet, above said established datum. The grade of the curbs shall be the same as the grade of the roadway except at Granville Street where the level of the curbs shall coincide with the present curbing at Granville Street, as shown on the plans and profiles now on file in the office of the Board of Public Service.

Section 4. That the whole cost of said improvement, less one-fifth thereof and the cost of interest on the bonds to be issued in anticipation of the collection of deferred assessments, shall be assessed by the foot frontage upon the following described lots and lands, to-wit: All lots and lands bounding and abutting upon the proposed improvement, which said lots and lands are hereby determined to be specially benefited by said improvement and the cost of said improvement shall include the expense of printing and publishing notices, resolutions and ordinances required and the serving of said notices, the cost of construction, together with the interest on bonds issued in anticipation of the collection of deferred assessments, and all other necessary expenses.

Section 5. That the assessments so to be levied shall be paid in 20 semi-annual installments with the interest on the deferred payments at 5 per cent per annum, provided that the owner of the property assessed, may at his option pay such assessments in cash within thirty days from and after the passage of the assessing ordinance, to the City Treasurer, in which case said cash assessments shall not include any item of interest upon bonds to be issued in anticipation of the collection of deferred assessments.

Section 6. That the bonds of the City of Newark, Ohio, shall be issued in anticipation of the collection of assessments by installments, and in the amount equal thereto.

Section 7. That the remainder of the entire cost of said improvement not specially assessed, including cost of interest thereon, and the damage awarded any owner of adjoining lands and interest thereon, and the cost and expense of any such award shall be paid by the issuance of bonds in the manner provided by law.

Section 8. This resolution shall take effect and be in force from and after its passage and legal publication.

Passed September 16th, 1907.

H. ROSSEL, President of Council.

Attest: LINCOLN B. MUNCH, Clerk.

Approved by the Mayor this 17th day of September, 1907.

Sept 18-25 SAMUEL H. McCLEERY, Mayor.

ORDINANCE NO. 1830

To Amend Assessing Ordinance No. 1767.

Be it ordained by the Council of the City of Newark, State of Ohio:

Section 1. That Section 1 of Ordinance No. 1767, passed January 21st, 1907, be amended so as to read as follows: That the name of Mary Fromholtz be struck from said Section 1, and the assessment against the said Mary Fromholtz for lot No. 1077 in Smith's Addition, amounting to \$25.91 be and the same is hereby declared void.

Section 2. That this ordinance shall take effect and be in force from and after the earliest period allowed by law.

Passed September 16th, 1907.

H. ROSSEL, President of Council.

Attest: LINCOLN B. MUNCH, Clerk.

Approved by the Mayor this 17th day of September, 1907.

WOMEN IN HOSPITALS

Experiences of Mrs. Rockwood and Miss Tierney

A large proportion of the operations performed in our hospitals are upon women and girls for some organic trouble.

Why should this be the case? Because they have neglected themselves, as every one of these patients in the hospital beds had plenty of warning in those dragging sensations, pains at left or right of abdomen, backaches, nervous exhaustion, inflammation, ulceration, displacements, and other organic weaknesses.

All of these symptoms are indications of an unhealthy condition of the female system and if not heeded the penalty has to be paid by a dangerous operation. When these symptoms manifest themselves, do not drag along until you are obliged to go to the hospital and submit to an operation—but remember that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, has saved hundreds of women from surgical operations.

Lydia E. Pinkham's Vegetable Compound has cured more cases of feminine ills than any other one remedy. Such letters as the following:

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised. Out of her vast volume of experience in treating female ills Mrs. Pinkham probably has the very knowledge that may help your case. Her advice is free and always helpful.

Ask Mrs. Pinkham's Advice—A Woman Best Understands a Woman's Ills.

NEW YACHT WAKIVA RETURNS FROM A HAZARDOUS TRIP TO THE ARCTIC CIRCLE.

Mr. I. V. HARKNESS' NEW YACHT WAKIVA

New York, Sept. 18.—The Wakiva, a new steam yacht owned by Mr. Lamont V. Harkness, N. Y. Y. C., has arrived after a twelve day run from Cherbourg, France.

The new Wakiva has cruised 15,000 miles since she left the yard of Ramage & Ferguson, at Leith, Scotland, on May 14 last. From Leith, Scotland, the yacht steamed to Southampton, England, completed her fitting out, and two weeks later left for Cherbourg, where her owner, his son, Mr. H. S. Harkness and Mrs. Harkness, Mr. and Mrs. A. K. Macomber of Pasadena, Cal., and Mr. and Mrs. Landon of Paris, made up the party for the new craft's initial cruise.

From Cherbourg the Wakiva started for Madeira, thence to the Grand Canary Islands, to Morocco, Tangier, Gibraltar, Cadiz, Lisbon, Oporto, and returned to Southampton for a short stay before proceeding to Kiel, where she remained during regatta week.

Just See How Light
The \$2.00

Bed Comforters Are

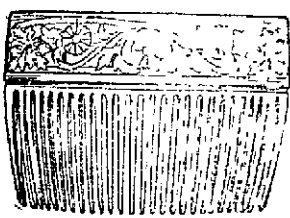

and still they are all the warmer. The cotton is white, clean and evenly laid. The coverings are

soft silkolines. The centers are plain with floral borders and nicely knotted with yarns. This is just enough of a price to enable us to offer you a beautiful comforter, and later in the season they will not be as nice at this price. We can sell comforters cheaper than you can make them. To prove this we will show a large line at \$1.25 and even one number of our extra large size at \$1.50. But its our \$2.00 line that we feature.

LOOK AT THE NEW 50c INITIAL BACK COMBS

The designs are worked out in solid gold leaf. There are 3 different styles, floral, ribbon knots or your own initial enclosed in a gold wreath. The rage—pretty, new and catchy. We have only 100 and 50c each place them on sale today at

JOINT CONFERENCE MAY BE HELD BY OPERATORS AND MEN

Columbus, O., Sept. 18.—There is a fair prospect that next year will see a resumption of the joint wage conferences between the operators and miners of the four states of Ohio, western Pennsylvania, Indiana and Illinois. The joint conference movement came to an end a year ago last winter at Indianapolis, when miners and operators failed to agree on a scale and each state made a separate settlement. John Mitchell, president of the miners' organization, has recently been looking over the four states sounding the operators, and it is believed that the joint conferences can be again arranged.

Boilermakers' Strike.

St. Paul, Minn., Sept. 18.—While admitting that the railroads are importing men to take the places of the strikers in the boiler shops, members of the local boilermakers' union assert that the majority of the men who are coming in are workmen of other trades, holding union cards, and soon as they find out what the situation is here, they quit work. The remainder of imported men, it is claimed, are Italians and Hungarians, who are unskilled laborers and know nothing about boiler-making.

"Had dyspepsia or indigestion for years. No appetite, and what I did eat distressed me terribly. Burdock Blood Purifiers cured me."—J. H. Walker, Sunbury, Ohio.

Director General Barr Resigns.

Norfolk, Va., Sept. 18.—In a letter addressed to the committee of directors, which arranged a settlement of the differences existing some weeks ago between himself and President Harry St. George Tucker of the Jamestown exposition, James W. Barr requests to be relieved of his duties as director general. Continued conflict between Mr. Tucker and Mr. Barr over the social features of the exposition causes Mr. Barr's action. He claims he can not continue in his position and maintain his self-respect.

Williams' Kidney Pills.

Have you neglected your kidneys? Have you overworked your nervous system and caused trouble with your kidneys and bladder? Have you pains in loins, side, back, groins and bladder? Have you a flabby appearance of the face, especially under the eyes? Too frequent a desire to pass urine? If so, Williams' Kidney Pills will cure you. Price, 50 cents. Sold by R. W. Smith, Newark.

A CRANK WANTED ROOSEVELT'S AID

In Collecting a Debt of \$10,000,000 From the Standard Oil King, John D. Rockefeller.

Oyster Bay, Sept. 18.—The monotony of official routine at Sagamore Hill was relieved last night by the arrival of another unexpected caller, who thought that he had urgent business with the President. The stranger who described himself as Orland

Coland, farmer, of Oxford, Ala., had reached the front door of the President's house when he was detected and headed off by a secret service agent. To the officer Coland explained that he wished to enlist the aid of Mr. Roosevelt in the collection of an obligation of \$10,000,000 from John D. Rockefeller. He was hustled on the first train for New York.

It was about 7 o'clock that a man of perhaps 30 years, clad in blue jeans, and with the general appearance of a hard worker, mounted the steps at the President's front door. There he was seen by Secret Service Agent Washer, who asked the man's business.

Coland had no hesitancy in telling. He had come to Sagamore Hill, he said, to request President Roosevelt to collect a debt of \$10,000,000 which he said John D. Rockefeller owed him. This sum, he explained, Mr. Rockefeller promised him in return for his services in connection with a murder trial at St. Paul.

ADMIRALTY ORDERS FIFTH "DREADNAUGHT"

Devonport, England, Sept. 18.—The admiralty has instructed the dockyard authorities here to lay down immediately a battleship of 20,000 tons, carrying eight 13.5-inch guns. The instructions are urgent that the work must be pushed with all possible haste. It is supposed that this battleship is the fifth "Dreadnaught" in the original naval program. Announcement was made that this fifth ship would not be built until the result of the second peace conference at The Hague became known, and the failure of the conference is believed to be responsible for this change of program.

ADMISSION

BY REPUBLICAN PRECINCT COMMITTEEMEN OF IRREGULARITIES

At the Primaries in the Interest of Bond for Mayor of the City of Columbus.

Columbus, O., Sept. 18.—During an investigation of charges against precinct officials in connection with the recent Republican city primaries, the election board secured admissions from a Republican precinct committeeman and two election officials that premiums had been offered them if their precincts polled the largest vote in the ward for Bond for mayor and for the so-called Karshner slate for members of the board of public service. The prize offered in this particular precinct, D of the Eighth ward, was \$200. Three election officers were dismissed and the board voted to call the attention of the prosecuting attorney to the facts developed by the investigation.

Edward H. Butler, proprietor of the Buffalo Evening News, has been appointed a director of the national waterways congress to succeed Harvey D. Goulder of Cleveland, resigned.

Cotton crop of Egypt, which exceeds 7,000,000 cantars (a cantar is a little over 99 pounds) shows a large increase over all records of the past decade. It is estimated to be worth \$150,000,000.

NO COCKTAILS WERE ORDERED BY PRESIDENT

Oyster Bay, N. Y., Sept. 18.—Because of the widespread publicity given the statement of Bishop Berry of Detroit that either President Roosevelt or Secretary Loeb and not Mr. Fairbanks were responsible for the cocktails served at the luncheon tendered them by the vice president at Indianapolis, Secretary Loeb issued the following formal statement in denial: "The statement is too absurd to be given any credence. Neither the president nor his secretary, either directly or indirectly, ordered anything of any kind at the lunch in question or at any other lunch where they were guests."

DRUNKEN JUROR

Given a Stiff Fine and Jail Sentence by the Stern Cincinnati Judge.

Hamilton, O., Sept. 18.—There was a sensational incident in the probate court when the Crawford's Run damage case brought by Pressley Lewis against the city was called. While Lawyer M. O. Burns was making a statement Juror Chris Alexander said to the court: "We don't want to hear this stuff. We want to be faced by witnesses." Court asked Alexander if he had been drinking, and Alexander replied that it was none of his business. Judge Hartkoff immediately fined Alexander \$50 and costs and sentenced him to ten days in jail. He was locked up by Sheriff Brannon.

CHICAGO REJECTS THE NEW CHARTER

Chicago, Sept. 18.—The charter authorized by the state legislature at its last session for the city of Chicago was rejected by the voters at the special election by a majority of over 62,000. Little more than half of the registered vote was cast, final figures, unofficial, showing 59,446 ballots for the charter and 122,054 against it. The total vote polled was 181,500 out of a registered vote of 361,988. The light vote was due to some extent to the fact that the election was a special one and that the granting of time for the purpose of voting was optional with employers, and in the majority of cases voters were obliged to go to the polls before going to work, or not at all.

GOVERNOR HOCH

Explains His Attitude Toward the Two-Cent Fare Question.

Topeka, Kan., Sept. 18.—Governor Hoch gave to the press a letter written to a member of the Kansas senate, explaining his attitude on the two-cent fare question. He said in his letter: "I have not said to any one what my action will be, whether I will secure this result through a special session of the legislature or otherwise. If to secure this result it should necessitate a special session of the legislature, in the language of Patrick Henry, 'Let it come.' The board of railroad commissioners has made the order and fixed Oct. 5 as the date when it will become effective. As yet I have had no official notification as to what the railroads purpose to do in this matter. But my mind is made up, and as soon as I have authoritative information as to what the railroads propose to do, I will then be ready to act." Later in his letter he says: "If the railroads had any 'horse sense' they would have stopped this discrimination voluntarily."

CLOTHING FOR LITTLE MEN
